

## POSITION ANNOUNCEMENT Virginia Beach, Virginia

### Senior Tactical Systems Analyst Advanced Consulting and Expert Solutions

**Starting Salary Range: \$70.00 to \$80.00 DOE**  
**FLSA: Non-Exempt**

Tactical Air Support, Inc., a growing national company, provides domestic and international “Center of Excellence” training and advisory services in tactical aviation, as well as the production, modification, and sustainment/maintenance of high-performance aircraft. We “Serve Those Who Serve” with innovative aviation solutions while maintaining a balanced focus on our customers and our teams and we are seeking an experienced **Senior Tactical Systems Analyst** to join our **ACES** team.

To support Tactical Air's FA-18A-G fleet consulting requirements, the Senior Tactical Systems Analyst position is an integral part of a dedicated, elite team of professionals who get things done, enjoy working together, and are committed to growing with this fast-moving company.

This position is located at Tactical Air Support's Naval Air Station Oceana office in beautiful Virginia Beach, Virginia. NAS Oceana offers an ideal setting for professional and personal fulfillment.

The ideal candidate for the Senior Tactical Systems Analyst position will be professional, highly productive, disciplined, team-oriented, technically astute, and responsive to the needs of the company, colleagues, and customers. This position reports to the Fleet Support Sector Lead and will be responsible to provide warfare analyses of alternatives, tactical systems usability studies, strike fighter aircrew tactical systems training, and technical manual production. The Senior Tactical Systems Analyst will leverage extensive operational strike fighter experience and graduate-level credentials in strike fighter employment, instruction, and/or flight test.

***The key desirable and preferred requirements for this position include:***

- Any combination of education and experience that would likely provide the required knowledge, skills, and abilities is qualifying. Please refer to the position profile for complete job description and requirements.
- Research Software Configuration Set updates and apply to fleet airworthiness documentation.
- Compile and convey various technical and engineering documents to aircrew in written and/or oral form.
- As a Subject Matter Expert (SME), provide hands-on training to aircrew and maintenance personnel on various FA-18 systems.
- Deliver classroom and simulator training to FA-18 aircrew and/or maintenance personnel.
- Develop training materials in various formats and platforms such as PowerPoint presentations, oral briefs, and in-flight guides for use by FA-18 aircrew.
- Ensure protection of current and potential intellectual and company technology.
- Regularly interact with and provide guidance, support, and input to internal and external customers, include VFA/VAQ squadrons, CVWP personnel, test squadrons, and program offices.
- Comprehensive technical and functional knowledge of FA-18 Super Hornet.
- Ability to demonstrate and convey technical and tactical knowledge of FA-18 systems.
- Ability to compile and convey knowledge of current and new software configuration sets.
- Strong computer skills with ability to utilize various software and applications (Microsoft Office 365/GCC High/MS Teams preferred) for creating documents, reports, forms, spreadsheets, presentations, and publications as required; web-based applications for organizing work, communications, or data entry; and virtual office/cloud-based file sharing.
- Ability to properly handle classified and/or protected information and/or materials, manage files,

- and maintain records in compliance with standard or required recordkeeping practices.
- Strong communication skills with the ability to provide information to colleagues, customers, coworkers, or other stakeholders (internal and external) utilizing various communication formats and tools, and exhibiting appropriate body language and listening skills, with emphasis on sharing or transmitting technical information with clarity and accuracy.
- Ability to plan and carry work through to completion with accuracy and attention to detail.
- Ability to comfortably manage multiple tasks and projects utilizing time management and organization skills.
- Strong interpersonal skills and ability to provide excellent customer service.
- Strong organizational and time management skills with ability to correctly prioritize workload to maintain schedules, deadlines, and standards on assigned projects.
- Ability to manage multiple roles and projects and to see the big picture.
- Ability to remain calm under pressure and be adaptable.
- Ability to cross-train into other specialties.
- Ability to read, listen to, and understand information and ideas verbally and in writing.
- Creativity, positivity, and confidence.
- Occasional travel to various work sites throughout the U.S. may be required.
- Ability to obtain U.S. government security clearance.

Tactical Air offers a comprehensive benefits package, including (but not limited to) 401K retirement savings plan with employer match, full health/dental/vision care, and life insurance. The level of position offered will be dependent upon background and qualifications. If you are a dynamic, self-motivated individual who appreciates challenging yet rewarding work, Tactical Air invites you to apply.

If any applicant requires assistance in accessing or completing an employment application, please contact Human Resources.

*Tactical Air is proud to be an **EOE AA M/F/Vet/Disability** Employer*
